Mr. Vu (ThayBinh)

Subject: Human Anatomy & Physiology (10 credits)

Hrs: 8:22 AM to 3:06 PM M-F, Room B-31

Contact and Technologies:

Phone: 916-433-5200 Ext. 1131

Email: Hoa-binh-vu@SCUSD.Edu

Infinite Campus (https://campus.scusd.edu/campus/portal/sacramento_city.jsp)

Online Evaluation (http://quizstar.4teachers.org/indexs.jsp)

Textbook: Hole’s Essentials of Human Anatomy and Physiology, 8th Edition

Ipad Essential Anatomy App

RE: Memo for AnaPhys Students and Parents @JFK HS

Dear students and parents,

I would like to welcome you to our 9 months of AnaPhys interaction. Please dedicate yourself to human body exploration commitment and application so you will make this worthwhile. Let’s start a year of change in knowledge and in maturity.

Before getting into what we will be learning, I like to reinforce my expectations for radiating happiness and relevant productivity. Please consider the YES and the NO described below.

***School and I will say YES to these:

Intangible stuffs (Common sense, sensitivity, modesty, respect, courtesy, dedication, self-initiative, punctuality, preparedness and cooperation)

Tangible stuffs (Notebook, organization, assignment completion, writing utensils)

***School and I will say NO to these:

Senioritis, food, drink, gum, electronic / battery op. devices, graffiti, tardiness, profanities, irrelevant chit-chat, littering, cheating, stealing, immaturity, whining, lame excuses, distractive attires, hyperactivity, cocky / testy attitude, late work, procrastination, more than 5 unexcused absences per semester.

What will you achieve from adhering to above YES expectations? Just to name a few.....How about good grades in scholarship, citizenship, intelligence, confidence, competence and a strong foundation built for future health related endeavor/decision making.
What if you prove you are trying to be invasive and on the NO with I DO NOT CARE attitude? You will have fair warning and/or conference with equity, respect and TLC. If all is exhausted, citizenship points will be deducted along with in house/after school detention/ Saturday school according to level of severity.

Our typical but tentative routine will be like this:

1. There will be a weekly agenda, point accumulation, and grades posted on Infinite Campus, be sure to keep abreast and follow through.

2. According to daily agenda board, you will be facilitated on the HOW TO DO through lectures, lab activities (Fetal pig, sheep brain, cow eyes, pig heart & chicken wing), concept mapping, homework reinforcement, group and individual interaction/practice, routine quizzes on quizstar.

3. I want you to treat my classroom as the fitness club for the cranium (brain). So please always stay alert, on task, follow direction, and make our cranium toner and sharper as we progress.

4. We will cover the following systems: Integumentary, Skeletal, Muscular, Nervous, Endocrine, Digestive, Respiratory, Cardiovascular, Lymphatic/Immune, Urinary/Excretory Reproductive.

The homework is typically from the guided reading, daily check your recall.

The typical point accumulation is estimated from: Monthly Citizenship= 10 pts; Weekly Guided Reading=30 pts; Almost daily Homework= 15 pts; Group project = 50 pts; Computer lab task= 25 pts; Friday Exam=100 pts; Semester notebook organization=100 pts.

Straight percentage will be used for letter grades as following: A 90%-100%; B 80 -89%; C 70 - 79%, D 58% - 69%; F 0%-54%.

Sincerely,

GOOD LUCK, Mr.Vu AKA Thay Binh
