At-Home Materials

Outside of school, students should use a personal computer; JFK library or public library are available for computer and printer access.

Homework

Homework is designed to be an extension of class work. If students do not turn in an assignment on the due date, 10 percent will be deducted for each day late.

In the event of an absence

It is the responsibility of the student to find out about any work missed due to absence. Late work will be accepted for overnight assignments.

If a student is absent on the day daily homework is assigned, the student has two days to turn in the assignment after returning to class. The day the student returns to class counts as one of those two days. After that, refer to the late work policy.

If a student is present on the day daily homework is assigned, but is absent on the day the assignment is due, the homework is due on the day she/he returns to class. If the student fails to bring work, the result is a letter grade decrease of the assignment.

Definition of Academic Dishonesty

According to George Washington University's Code of Academic Integrity, (a) Academic dishonesty is defined as cheating of any kind, including, taking credit for the work of others without crediting them and without permission, and the making up of information. (b) Common examples of academically dishonest behavior include, but are not limited to, the following:

- 1) Cheating - intentionally using or attempting to use materials without permission, copying from another student's examination or homework; representing material prepared by another as one's own work.
- 2) Fabrication - intentional and unauthorized falsification or invention of any data, information, or citation in an academic assignment.
- 3) Plagiarism - intentionally representing the words, ideas, or sequence of ideas of another as one's own in any academic assignment; failure to use any of the following: quotations, paraphrases, or other citation.

Consequences of Academic Dishonesty

The consequence for academic dishonesty is a zero on the assignment, paper or assessment and a phone call home. The same consequence applies to the student who supplies the paper or assignment for another to cheat from. The above consequences also apply to online documents.
