Getting to Know the California School Dashboard

The California School Dashboard (<http://www.caschooldashboard.org>) is an online tool designed to help communities across the state access important information about K–12 schools and districts. The Dashboard features easy-to-read reports on multiple measures of school success. The Dashboard is just one step in a series of changes that have raised the bar for student learning, transformed testing, and increased the focus on equity.

10 Indicators of School Success

State Indicators

Six state indicators allow for comparisons across schools and districts based on information collected statewide.

- **High School Graduation Rate**
- **Academic Performance**
- **Suspension Rate**
- **English Learner Progress**
- **Preparation for College/Career (CCI)**
- **Chronic Absenteeism**

Results are presented for all districts, schools, and defined student groups (e.g., racial groups, low income, English learners, homeless, foster youth, students with disabilities).

Schools and districts receive one of five color-coded performance levels on each of the six state indicators.

Each performance level is represented by (1) a color, and (2) a number of shaded segments. For example, Green will have four segments filled.

The overall performance level is based on both the current performance (status) and change from the previous year (change).

Local Indicators

Four local indicators are based on information collected by districts, county offices of education, and charter schools.

- **Basic Conditions**
 - Teacher qualifications
 - Safe and clean buildings
 - Textbooks for all students
- **Implementation of Academic Standards**
- **School Climate Surveys**
 - Student safety
 - Connection to the school
- **Parent Involvement and Engagement**

Districts receive one of three performance levels for each of the four local indicators:

- Met
- Not Met
- Not Met for Two Years

School and student group information is not available for local indicators.
