

**JOHN F. KENNEDY HIGH SCHOOL
COURSE SYLLABUS
DEPARTMENT OF MATHEMATICS**

Subject to change due to Covid-19

1.	COURSE NUMBER, TITLE, UNITS AND PRINCIPAL/DEPARTMENT APPROVED DESCRIPTION	
	Integrated Mathematics II (Two semesters; 5 units each semester; 10 units total)	
2.	GENERAL INFORMATION	
	Term and year:	Fall 2020 - Spring 2021
	Instructor:	Samantha Walker
	Class Room:	C307
	Phone number:	<i>Google Voice: 916-668-0737</i>
	E-mail address:	Samantha-Walker@scusd.edu
3.	TEXTBOOKS AND/OR RECOMMENDED OR REQUIRED READINGS	
	Common Core State Standards, Mathematics II, Integrated Pathway. Walch.	
4.	GENERAL OVERVIEW	
	<p>Math II continues students' study of topics from algebra, geometry, and statistics in a problem-centered, connected approach. Functions and algebraic representations of geometric concepts are the principle topics of study. Students will be expected to describe and translate among graphic, algebraic, numeric, tabular, and verbal representations of relationships and use those representations to solve problems. The new Common Core high school standards call on students to practice applying mathematical ways of thinking to real world issues, prepare students to think and reason mathematically, and emphasize mathematical modeling.</p>	
5.	COURSE OBJECTIVES	
	<p>This program includes all the topics addressed in the CCSS Integrated Pathway: Mathematics II content map. These include:</p> <ul style="list-style-type: none"> • Extending the Number System • Quadratic Functions and Modeling • Expressions and Equations • Applications of Probability • Similarity, Right Triangle Trigonometry, and Proof • Circles With and Without Coordinates 	

6.	COURSE REQUIREMENTS, ATTENDANCE AND SPECIFIC GRADING POLICY
	<p>Grades are based on demonstrated mastery of concepts and development of skills, not effort or potential. <i>A major component of your grade is determined by your results on exams and quizzes.</i> Progress reports are available on the District Web site in Infinite Campus. Student overall performance is determined by exams (including final exam) and quizzes as well as assignments, which comprises homework (based on work collected), in class assignments (based on work collected such as worksheets, activities), and projects.</p> <p>Assignments are a guide as to what is most important and what will be tested. Assignments are given daily. <i>Students not actively engaged in assignments and study will most likely fail the class.</i> Planning your study should include a minimum hour of quality time daily.</p> <p>The math dept. complies with district protocol, viewable at www.scusd.edu. Make-up work/tests are student's responsibility and may not be allowed without a valid re-admit, or excused absence.</p>
7.	DESCRIPTION OF MAJOR ACTIVITIES/EXERCISES/PROJECTS
	<p>Instructional Strategies and Activities Include:</p> <ul style="list-style-type: none"> · Lecture on concepts and techniques · Presentation/modeling of examples and strategies · Large and small group discussions and explorations · Reading and writing assignments · Practice and learning through classwork and homework assignments · Applications to demonstrate relevance and extend learning · Active student engagement in group work and discussions · Quizzes, and tests to encourage and monitor learning
8.	GENERAL STATEMENTS
	<p>Students are expected to be familiar with and adhere to policies in the JFKHS Student Handbook. The student handbook identifies student rights, responsibilities, discipline rules and consequences, behavior, and other information for academic and social success. Student ignorance does not provide justification for failure to follow the information contained in the student handbook. The Principal reserves the right to modify and/or change the course syllabus as needed during the course.</p> <p>CLASSROOM BEHAVIOR EXPECTATIONS: The following summarize important expectations for classroom behavior. Students are expected to:</p> <ul style="list-style-type: none"> • attend class every day. • complete all assignments on time. • be seated and prepared for learning when the bell rings. • treat their classmates with respect; no put downs of any kind. • actively and positively participate in class. • demonstrate personal responsibility, honesty, and integrity in all of their actions.

CLASSROOM RULES: The following few rules guide classroom behavior and activity.

- Follow teacher directions and requests immediately.
- Keep your hands, feet, and other objects to yourself.
- Remain seated unless you have permission to move about the classroom.
- Eating (food, candy, etc.) and gum chewing are not permitted in the classroom.

ELECTRONIC DEVICES: Electronics (music devices, cell phones, etc.) are to be turned completely off and put away.

COURSE REQUIREMENTS, ATTENDANCE AND GRADING POLICY

Grading Scale:

89.9% - 100%	A
79.9% - 89.9%	B
69.9% - 79.9%	C
59.9% - 69.9%	D
0 % - 59.9%	F

50%	Assessments
40%	Assignments
10%	Attendance & Participation

HOMEWORK AND STUDY: Homework and student study is an essential part of your education. Any student expecting to do well in this course should carefully take note of all lessons and do all the assigned work.

CHARACTERISTICS OF QUALITY WORK: Using the following guidelines will help you master the Integrated Mathematics II objectives. Quality work has the following characteristics.

- Is complete with full solution. That is, all problems are completed or at least attempted.
- The supporting work for each problem is shown completely using proper algebraic conventions and notations.
- The work is done neatly.
- The work is done accurately.

CHARACTERISTICS OF A SUCCESSFUL STUDENT: Students that are successful in school generally exhibit the following traits:

- Is consistently present for class in body and spirit.
- Desires to learn the material presented.
- Uses time wisely.
- Does practice work, study, and test preparation faithfully.
- Asks thoughtful questions during class.
- Actively participates in class and gets extra help when needed.

CALCULATOR USE AND EXPECTATION: A scientific calculator (preferably TI

	<p>models) is necessary for this course. A graphing calculator is not necessary for this class (and is not allowed on all tests). The calculator is a tool to aid in learning concepts, not just a means of computation. Calculator use will be allowed on tests and quizzes during the year. Absolutely no cell phones will be allowed on tests as calculators at school.</p>
